

You're Invited!

Virtual Open House

Join us online to connect directly with our Program Director and Program Coordinator to learn more about our Psychiatry residency program at Augusta Health!

About the Open House

This event provides medical students with an opportunity to explore our supportive learning environment, faculty mentorship, commitment to resident wellness, and diverse opportunities for professional growth. Attendees will hear from program leadership and faculty about our approach to resident development, scholarly activity, community engagement, and the unique advantages of training within an independent, community-based health system. Guided by Augusta Health's mission, **"To strengthen the health and well-being of all people in our communities,"** our program is dedicated to fostering compassionate physicians who are committed to excellence in patient care, lifelong learning, and service to the communities they serve. We invite you to discover how our program supports residents in becoming confident, well-rounded psychiatrists prepared to meet the evolving mental health needs of their patients and communities.

Learn more about the program at one of our Meet and Greet sessions

Tuesday, August 11th, 2026 | 2:30pm-3:30pm EST
