Diagnostic Radiology
X-Ray

Welcome

Thank you for choosing Augusta Health Diagnostic Radiology. Your physician has referred you to have images taken to diagnose medical condition(s) and or injuries.

After you have been registered, you will be greeted by a Technologist (Tech) that will take you back to an exam room to prepare you for the X-Ray. The Technologist may ask you go to the dressing room and change into a gown in preparation for the images. If you need help getting ready, please let the Tech know, they will be glad to help you.

What should I expect?

Your exam should take approximately 15-20 minutes to complete. The technologist will explain your exam(s) to you and assist you in the proper position(s) for each image. At any point during your exam you have questions, please let the technologist conducting your exam know. They will be glad to assist you.

Our goal today is to assure your privacy while being sensitive to your needs and comfort during your visit. If there is anything we can do to help make you more comfortable during your visit to Augusta Health, please let us know.

Wait Time

Once your exam is completed your x-ray images will be reviewed by technologist before being read by one of our Radiologists. Upon completion of your exam your Physician will receive a written report.

You may receive a patient satisfaction survey from Press Ganey to rate our performance today at Augusta Health. We would appreciate it if you could take a few moments to let us know how well we are doing. Thank you for choosing Augusta Health.
